Project Proposal: GIS-Based Provincial Fire Response and Decision Support System with Smart Dispatch and Inter-Municipality Coordination for BFP in Antique

RESEARCH QUESTIONNAIRE | PROVINCIAL BFP PERSONNEL

Instructions: Check one box under Yes or No for each question. Answer based on your experience or opinion. Participation is voluntary; responses are for research purposes only.

Name (optional): _____ Date: _____

Office: _____ Position: _____

QUESTIONS	YES	NO
A. Current Records and Monitoring Practices		
1. Does your office receive fire-incident reports from municipal BFP offices?	☐	☐
2. Does your office use paper records to monitor fire incidents?	☐	☐
3. Does your office use spreadsheets to compile municipal fire reports?	☐	☐
4. Can your office retrieve past fire-incident records when needed?	☐	☐
5. Does your office keep records of assistance provided between municipalities?	☐	☐
B. Challenges in Provincial Monitoring		
6. Does your office receive delayed incident updates from municipal BFP offices?	☐	☐
7. Is confirming the latest status of active fire incidents difficult?	☐	☐
8. Is checking firetruck availability across municipalities difficult?	☐	☐
9. Is tracking the status of inter-municipality assistance requests difficult?	☐	☐
10. Is combining municipal fire reports into provincial summaries time-consuming?	☐	☐
C. Proposed System Requirements		
11. Would a shared incident database be useful for provincial monitoring?	☐	☐
12. Would a digital map of active fires be useful for provincial monitoring?	☐	☐
13. Would a dashboard of municipal response activities be useful to your office?	☐	☐
14. Would searchable assistance-request histories be useful for reviewing coordination?	☐	☐
15. Should access to provincial records depend on a user's assigned role?	☐	☐

RESEARCH QUESTIONNAIRE | MUNICIPAL BFP PERSONNEL

Instructions: Check one box under Yes or No for each question. Answer based on your experience or opinion. Participation is voluntary; responses are for research purposes only.

Name (optional): _____ Date: _____

Municipality: _____ Position: _____

QUESTIONS	YES	NO
A. Current Reporting and Response Practices		
1. Does your station receive fire reports by telephone?	☐	☐
2. Does your station record fire incidents in paper logbooks?	☐	☐
3. Do personnel verify incident details before dispatching responders?	☐	☐
4. Does your station record responder assignments for each fire incident?	☐	☐
5. Does your station contact another municipality when additional assistance is needed?	☐	☐
B. Challenges in Local Response and Coordination		
6. Are incomplete location details a problem when locating reported fires?	☐	☐
7. Is checking the availability of firetrucks before dispatch difficult?	☐	☐
8. Is identifying accessible routes to reported fires difficult?	☐	☐
9. Is obtaining updated responder locations during operations difficult?	☐	☐
10. Does your station experience delays in receiving replies to assistance requests?	☐	☐
C. Proposed System Requirements		
11. Would online fire reports with location details be useful to your station?	☐	☐
12. Would preliminary fire-severity recommendations help personnel assess reported fires?	☐	☐
13. Would digital route guidance be useful for responding firefighters?	☐	☐
14. Would a shared request-tracking system be useful when seeking municipal assistance?	☐	☐
15. Should dispatch decisions remain with authorized Municipal BFP personnel?	☐	☐
